

Towards a Digital Health Record in Uganda

The delegation that attended the handover ceremony held at the Ministry of Health offices in Nakasero

with the Ministry of Digitalization Strategy, supported procurement of a standard package of networking equipment for eight of the sixteen (16) Regional Referral Hospitals (RRH). The equipment will be used to network all data collection points within and across health facilities.

Handing over the equipment to Dr. Daniel Kyabayinze, the Director of Public Health at the Ministry of Health, and representing the Permanent Secretary, Dr. Alice Namale the Director METS pointed

out that the equipment worth over UGX 640 million will benefit eight hospitals: Mubende, Masaka, Naguru, Arua, Jinja, Mbale, Kabale. This equipment includes fiber cables, panels, routers, coolers, internet access devices, transceivers, and computers.
